2012

**Sweden's only magazine for
modern production engineering**

magazine for everybody who is working with automation within the whole Swedish manufacturing industry. Automation covers PLC:s, motor controls, fluid power, single loop controllers, distributed control systems, PC:s, software, sensors, in-line measurements, local area networks for industrial use like field buses, control room technology and man-machine interfaces. Everything to make the production more efficient within the industrial process.

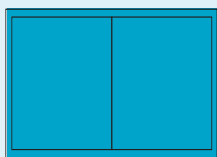

Automation magazine is the only modern production engineering magazine in Sweden. We have been at the Swedish market for over 30 years so we are a well known and popular
